Scale Factor = 2

A grid for an enlargement exercise. The top-left corner contains the text "Scale Factor = 2". A rectangle is drawn on the grid, spanning 2 units wide and 2 units high. The rectangle is positioned such that its bottom-left corner is at the intersection of the 2nd vertical grid line and the 10th horizontal grid line from the top.

Scale Factor = 2

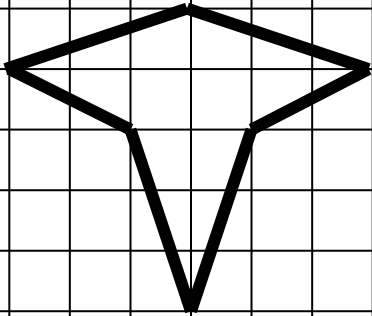

A grid for an enlargement exercise. The top-left corner contains the text "Scale Factor = 2". A trapezoid is drawn on the grid. The bottom-left corner of the trapezoid is at the intersection of the 2nd vertical grid line and the 10th horizontal grid line from the top. The top-left corner is at the intersection of the 3rd vertical grid line and the 9th horizontal grid line. The top-right corner is at the intersection of the 7th vertical grid line and the 9th horizontal grid line. The bottom-right corner is at the intersection of the 5th vertical grid line and the 10th horizontal grid line.

Scale Factor = 3

A grid for an enlargement exercise. The top-left corner contains the text "Scale Factor = 3". The grid is 20 units wide and 20 units high. A small polygon is drawn in the bottom-left corner, spanning from grid coordinate (1, 1) to (4, 4). The polygon has vertices at (1, 1), (1, 4), (2, 4), (3, 3), and (2, 2).

Scale Factor = 3

A grid for an enlargement exercise. The top-left corner contains the text "Scale Factor = 3". The grid is 20 units wide and 20 units high. A small polygon is drawn in the bottom-left corner, spanning from grid coordinate (1, 1) to (4, 4). The polygon has vertices at (1, 1), (2, 1), (3, 2), (2, 3), (1, 3), and (1, 2).
